

## Software Developer / IT Consultant (m/f/d)

### Your Role:

- Analysis of customer requirements, development and optimization of large and complex software systems with high personal responsibility
- Implementation of automation processes and cloud infrastructure
- Consulting on and implementation of automated test environments
- Introduction of agile processes
- Optionally, there are numerous opportunities to get involved within TNG

### You...

- are constantly looking to learn and have an interest in technical topics
- are quick to understand and have an analytical mindset
- enjoy solving complex customer problems as part of a team
- have a very good first or higher degree in a technical subject (computer science, physics, mathematics, etc.)
- possess basic IT knowledge and coding experience

### Our offer:

- A demanding, academic environment
- An open-minded and team-oriented culture characterized by strong team spirit and flat hierarchies
- Continuous education within our internal techdays (up to 10% of the working time) as well as external trainings and conferences
- Attractive work-life balance with flexible working hours, paid overtime, 30 days of paid holiday, and little to no travelling expected
- A continuous supply of drinks, snacks, ice cream and regular barbecues with everything from steaks to vegan burgers

Apply [online](#) or via [work@tngtech.com](mailto:work@tngtech.com).

We are looking forward to getting to know you.

## TNG Technology Consulting GmbH

As a partnership-based IT consultancy, we work in a customer-oriented manner on a variety of projects in the areas of Agile Software Development, Artificial Intelligence, and DevOps & Cloud. In addition, we work on topics in Big Data and IoT. We mostly use Java and TypeScript, but also other programming languages, such as Python or C#.

Our clients include large corporations as well as medium-sized companies and start-ups from a wide variety of industries, including e.g. telecommunications, security technology, insurance, fintech, and automotive.
